

Tornado4000 (2023 New Version)

The All-In-One Battery Charger

The Tornado4000 is more than just a smart compact battery charger. It's a battery maintainer, trickle charger, battery desulfator, and a DC power supply all in one. Tornado4000 can supply a constant 13.5 volts DC to power on-board devices drawing up to 4 amps. It's compatible with 6V/12V lead-acid and 12V lithium-ion batteries up to 150Ah. 5 charging modes combined with 9-Step Smart Charging technology make the Tornado4000 highly versatile. An IP65 waterproof enclosure and cold weather capability (down to -4°F) ensure a wide operating environment range, while also being lightweight and portable. Operation is easy thanks to the intuitive LED indicators. It can even be left connected to the battery for long periods of time without worry.
